

1ST International Conference on Water and Environmental Engineering

20-22 November 2017, Sydney, Australia

CONFERENCE INFORMATION

1st International Conference on Water and Environmental Engineering Sydney, 2017 (iCWEE 2017) will bring international and national experts in water and environmental engineering to Sydney to present and share their latest research and practice. iCWEE 2017 will be held in Sydney, which is one of the largest cities in Australia. The conference is supported by Global Circle for Scientific, Technological and Management Research (GCSTMR) and Science, Technology and Management Crest, Australia (STAMCA). GCSTMR endeavors to create a platform for young researchers to exchange ideas and share information with experts in their respective fields. GCSTMR encourages and facilitates trans-national collaborations among its members and associates in research, training and professional activities. Multidisciplinary international conference series run by GCSTMR opens vast opportunities for researchers to interact on the global platform and take

advantage of knowledge sharing in the digital arena.

iCWEE 2017 will be held at Western Sydney University's Parramatta campus, which is situated 20km from the Sydney CBD and is well connected by rail, road and ferry networks. The traditional landmarks of Sydney including Sydney Harbour, Sydney Opera House and Harbour Bridge are within easy reach of the conference venue as is the Blue Mountains World Heritage National Park.

iCWEE 2017 will feature keynote addresses by world leaders in water and environmental engineering fields. It will cover a wide range of areas within water and environmental engineering research where leading researchers as well as new researchers will be able to exchange their views and ideas on water and environmental engineering. All the abstracts and full papers submitted to iCWEE 2017 will be refereed by two independent reviewers and if accepted will be published in the conference proceedings with Australian ISBN Number.
